

ISN'T FREE SILVER,
BUT VERY NEAR ITPART OF JONES' BILL REPORT-
ED BY SENATE COMMITTEE.

Provides for the Unrestricted But Not Free Coinage of Silver, and the Giving of Seigniorage—Ninth Section the Portion Recommended as an Independent Measure.

Washington, Feb. 12.—The senate finance committee this morning voted to report the ninth section of Jones' financial bill as an independent measure. It provides for the unrestricted but not free coinage of silver and the giving of government seigniorage.

Resolutions were presented by which the legislatures of both Kansas and Minnesota expressed themselves in favor of the election of United States senators by direct vote of the people. Mr. Pettigrew (rep., S. D.) presented a resolution severely arraigning the management of the Union and Central Pacific railroad companies. Mr. Pettigrew said he would at a later day submit a list of parties with the amounts of liability. The senator said the manipulation of these railroads was a "disgrace to American civilization."

A new phase of the financial question came up on the resolution presented by Mr. Hill (N. Y.) defining the policy of the government concerning bimetalism, gold payments, etc. The resolution is as follows:

"Resolved, (If the house of representatives concurs), that it is the sense of congress that the true policy of the government requires that its efforts should be steadily directed to the establishment of a safe system of bimetalism, wherein gold and silver may be maintained at a parity and every dollar coined may be the equal in value and power of every dollar coined or issued by the United States; but if our efforts to establish or maintain such bimetalism shall not be wholly successful and if for any reason our silver coin shall not hereafter be at parity with gold coin and the equal thereof in value and power in the market and in the payment of debts, then it is hereby declared that the bonds of the United States now or hereafter issued which by their terms are payable in coin, shall nevertheless be paid in standard gold dollars, it being the policy of the United States that its creditors shall at all times be paid in the best money in use."

Mr. Hill (N. Y.) asked immediate consideration for the resolution but Mr. Butler (dem., S. C.) objected and it went over.

Mr. Stewart (pop.) at once supplemented the Hill resolution with another, as follows:

"Resolved, That there is no authority of law to buy gold coin in preference to silver coin for any purpose whatever."

The resolution also went over and the senate took up the postoffice appropriation bill.

Mr. Lodge made a point of order against the first senate amendment giving the Postmaster-General discretion in expending the \$3,205,000 for railway postal service and an animated discussion arose over the item.

Mr. Allison (rep., Iowa) and Mr. Culom spoke against the idea.

Mr. Vest (dem., Mo.) said the government should own postal cars just as it owned postoffices. The railroads seemed determined to control all the traffic over their oads. Mr. Vest continued in a severe arraignment of the railroads for advancing or retarding legislation as it suited them. He asserted that rebates were now being put in connection with Chicago cattle shipments in defiance of law.

Mr. Allen urged the government ownership of railroads. He soon diverged into a discussion of the claims of election frauds in Alabama. Mr. Allen spoke for three hours and had not concluded when the senate adjourned.

BERING SEA QUESTION.

President Cleveland Transmits Documents
to the Senate.

Washington, Feb. 12.—The President yesterday sent the following message to congress on the Bering Sea question:

"To the Senate—On the 18th of January I received a copy of the following senate resolution:

"Resolved, That the President be required, if not incompatible with the public interests, to communicate to the senate all reports, documents and other papers, including logs of vessels, relating to the enforcement of the regulations respecting fur seals adopted by the governments."

"It will be seen from a letter of the secretary of the navy, accompanying the papers and documents sent from his department, that it is impossible to furnish at this time the complete log-books of some of the naval vessels referred to in the resolution, but I venture to express the hope that the reports of the commanders of such vessels herewith submitted will be found to contain in substance so much of the matters recorded in said log-books as are important in answering the inquiries addressed to me by the senate."

"Grover Cleveland.
Executive Mansion, Feb. 11, 1895."

Bond Bill in Favor.

Washington, Feb. 12.—While the ways and means committee of the house has set about the consideration of the recommendations of the president relative to the issue of bonds payable specifically in gold, it cannot be said that much progress has been made in that body. There is a probability that a bill providing for bonds, but letting the currency alone, will get through the committee. It will probably be in connection with a proviso that money obtained from bonds shall not be used for current expenses, this idea having been accepted as the proper one by Chairman Wilson, who is the direct representative of the administration.

Sugar Bill Likely to Be Stified.

Washington, Feb. 12.—The republican members of the finance committee

in conference for a short while yesterday, but adjourned with the understanding that the full committee would not be in session to-day owing to the indisposition of Senator Voorhees, the chairman. Later, democratic members of the committee stated there will be an effort to have a meeting regardless of Senator Voorhees' absence. It is believed the income tax extension bill will be reported without objection, but it is doubtful whether the sugar bill will emerge from the committee. It is also doubtful whether any proposition of a financial character will be reported.

CLAIM AGAINST HAWAII.

State Department Will Investigate the
Case of Exile Cranston.

Washington, Feb. 12.—The state department will proceed to take vigorous measures in the case of J. Cranston, who arrived at Vancouver yesterday on the Warrimoo, an exile from Hawaii. A brief statement of his case has been received at the state department from the United States commercial agent at Vancouver, alleging that Cranston is an American citizen; that he was guiltyless of any participation in the rebellion, and that he was forcibly placed aboard the steamer and exiled without any trial and to his severe pecuniary loss.

It will be necessary in order to make out a case against the Hawaiian government to substitute Cranston's statement at every point. According to his own story Minister Willis took his deposition before he was ejected from Hawaii, and the minister is doubtless fully investigating the matter there. Should Cranston's assertions be borne out by this inquiry, there can be little question that he will have a good claim for indemnity against the Hawaiian government, and it will be the duty of our state department to insist upon a settlement.

TO PURCHASE LAW BOOKS.

Special Amendment Made to the Legis-
lative Appropriation Bill.

Washington, Feb. 12.—The house yesterday after some unimportant business resumed the consideration of the legislative appropriation bill. On motion of Mr. Hartman (rep., Mont.) an amendment was adopted authorizing the secretary of the treasury to establish at the assay office at Helena a refinery for refining and parting gold and silver and for casting the same into bars, ingots, etc.

Mr. Dockery offered an amendment to the clause appropriating \$99,665 for the publication of the Patent Office Gazette and \$61,125 for producing copies of drawings, trade marks, etc., so as to give the public printer an opportunity to bid for the work and to do the work at the public printing office if the joint committee on printing should deem it advantageous to the interests of the government. The amendment was adopted.

On motion of Mr. Tarry (dem., Ark.) an amendment was adopted appropriating half of the surplus derived from the fees of clerks of United States courts to apply for the purchase of law books under the direction of the attorney general. The bill to provide for coinage at the branch mint at Denver, Colo., was passed and the house adjourned.

New Move in the Pacific Road Cases.

Washington, Feb. 12.—Senator Pettigrew yesterday introduced a resolution requesting the President to employ counsel for the purpose of bringing suit against the directors and stockholders of the Union and Central Pacific railroads who received the stock of said roads without paying cash for the same; also to recover from the directors, officers and stockholders of said road such sums of money as was stolen by them or diverted and converted to any unlawful purpose and therefore not placed in the sinking fund as required by law; and the President is hereby authorized to pay to said attorneys the sum of 5 per cent. of all sums recovered from said directors or stockholders. Forclosure proceedings are also to be begun.

The house Pacific railroads committee gave a hearing yesterday to representatives of the companies. They presented the proposition of the corporations to settle their government debts by the payment of the principal thereon, an arrangement by which the Union Pacific would pay the United States about \$33,500,000 and the Central Pacific about \$27,500,000. The plan to pay the principal would be equivalent in its financial results to the Reilly bill at 2 per cent. instead of 3, in the present condition of the money market.

Pooling Bill Dead.

Washington, Feb. 12.—According to one of the railroad lobbyists, who has been here for months working on the scheme, there are fifty-five senators who are counted on to vote for the passage of the Patterson pooling bill. These figures are about correct. Senator Butler, in charge of the measure, will endeavor to have it taken up for consideration, but it is more than doubtful if it ever comes to a vote. Men who should be well informed are confident the bill is dead.

Pass the House.

Washington, Feb. 12.—The Chicago public building bill was yesterday called up by Mr. Durborow, who moved to concur in the senate amendments. There was no opposition. The bill passed and will now go to the President for his signature.

Fail to Hold Up a Gulf Train.

Ardmore, I. T., Feb. 12.—An unsuccessful attempt was made to hold up the north bound Gulf, Colorado & Santa Fe passenger train about 1:30 o'clock yesterday morning at a point on Hickory creek, in a desolate region about two and a half miles south of the little town of Overbrook. As the engineer was reversing his engine to take water and the train commenced to slow up the headlight revealed several suspicious looking characters on the track. The engineer opened the throttle and the train flew by the water station and from the underbrush on either side the cars were fired upon.

LA GASCOGNE SAFE
AND AT HER DOCKBIG BOAT REACHED NEW YORK
AT 11 A. M.

Whistles Screamed and Thousands Cheered as She Came Up the Bay—Her Machinery Disabled, But the Passengers All Well and Cheerful—Storm News.

New York, Feb. 12.—La Gascoigne reached her dock at 11 o'clock this morning. She came up the bay amid screaming whistles. The big boat came to anchor outside the bar off Sandy Hook at 11:27 last night. La Gascoigne's passengers were all on deck, some of them singing and most of them cheering as persons are wont to do when their minds are suddenly relieved of a heavy strain. For thirteen days of a voyage lasting sixteen days the ship had been disabled, one of the main piston rods having broken on its third day out from Havre. For sixteen hours the vessel was to have to while the break was being repaired. It was comparatively good weather then but the steamer was doomed to run into some of the nastiest of its voyage.

When the break had been repaired the steamer proceeded, but under greatly reduced speed. When near the banks of Newfoundland La Gascoigne ran into a gale that increased to hurricane force. While off Sable Island Feb. 5 the machinery broke down again and the steamer was to have to again, this time for forty-one hours. During all this period the engines did not make a single revolution. When the second repairs had been made the steamer started ahead once more under still further reduced power and headed toward the Long Island coast.

While the passengers were considerably worried on account of the delay, there never was a panic among them. They knew their ship was a staunch one and they had every confidence in their captain. And, besides, they knew the ship was not totally disabled. But they were nervous and apprehensive at times and they hailed the conclusion of their voyage with joy. They cheered the captain and they cheered the crew and they cheered the first tug that reached them. It was nearly midnight when La Gascoigne reached the bar, where it anchored for the night. It was met there by the Chapman company's derrick tug Hustler, which brought the vessel up to its dock this morning.

GEORGIA IN SNOW

All Trains Delayed—Edward Lynn, Col-
ored, Frozen to Death.

Atlanta, Ga., Feb. 12.—This city woke up yesterday morning to find itself covered with a heavy blanket of snow. Snow began falling at half-past 12 and continued at intervals until daylight. It is now three and a half inches deep on the level. Street car traffic is practically abandoned for the time. All trains arriving here are delayed by the snow. Edward Lynn, colored, was frozen to death while on his way to Augusta from his home in the country this morning.

New Orleans, La., Feb. 12.—The cold wave struck Shreveport yesterday. Never in the history of that city has there been such fearfully cold weather as the present blizzard. At Jackson, Miss., there is suffering among the people for want of fuel and the necessities of life. At Columbus, Miss., there was a heavy fall of sleet and a snow storm is raging. At Holly Springs, Miss., last night three inches of snow fell. Paris, Tex., Feb. 12.—On account of the long continued cold weather, cattle in the Indian Territory are dying in large numbers because they can get no food. There are many of the people are in a destitute condition, and that starvation is staring them in the face.

St. Augustine Seven Days Overdue.

New York, Feb. 12.—Considerable anxiety is felt in this city and Jacksonville for the safety of the steamer City of St. Augustine, Capt. Gaskill. Since it sailed from Jacksonville Jan. 30 no word has been received about it. It should make the voyage in from four to five days, and is now about seven days overdue. Its crew numbers fourteen men.

School Teacher Freezes to Death.

Lyons, N. Y., Feb. 12.—Mrs. Davis, the teacher of the district school three miles north of this village, was found yesterday morning frozen to death in a snow bank, where she had lain since Friday morning.

Guatemala Thinks It Wins a Point.

Guatemala, Feb. 12.—The news from the City of Mexico, that that country is willing to submit the question of amount of indemnity to either a mixed commission or to arbitration, is considered an important concession in favor of Guatemala.

No Break in the Storm Weather.

Oswego, N. Y., Feb. 12.—The big storm which has been raging for a week past shows no signs of abatement. For prolonged severity it is the worst storm experienced here in twenty years.

Two More Victims of Elbe Disaster.

Beatrice, Neb., Feb. 12.—Letters received here yesterday disclosed the fact that two citizens of this county went down on the Elbe. Their names were Harry Hunze and Gottlieb Bokelmann. Hunze leaves a family of eight.

Interviewed by the Queen.

London, Feb. 13.—Miss Annie Boecker, the only woman saved from the Elbe, had an audience yesterday with Queen Victoria and the queen's eldest daughter, Empress Frederick of Germany.

Bank at Superior, Neb., Closed.

Superior, Neb., Feb. 12.—The doors of the Bank of Superior were closed by the state bank examiner yesterday. General business depression is alleged as the cause. The depositors are not expected to lose anything.

BILLS BY THE SCORE
INTRODUCED TODAYTHE LEGISLATURE IS FLOOD-
ED WITH NEW MEASURES.

A Long Session Will Be Necessary in Order to Act Upon All the Measures Before the Law Makers—Night Session Will Be Held This Evening.

Madison, Feb. 12.—Both houses were flooded with bills today as it is the last day for new business. The most important were those reducing railroad fares to two cents a mile, creating the office of forest warden and making town supervisors and path masters, wardens to put out forest fires and prevent their spread; reducing the prices charged by express companies for service; providing for the selection of local candidates and delegates to conventions by ballot and polling booths which shall be open one day, each voter voting only for his party nominee; extending the application of civil service rules to city employees; appointing police matrons in larger cities; making February 13 a legal holiday; reducing sleeping car fares; making all warehouses having a capacity of 100,000 bushels public warehouses that shall receive grain from any one at fixed rates of storage, to prevent discriminations such as those at Superior now complained of. The number of bills is as large or larger than last year, foreshadowing a long session. Both houses will meet tonight to receive more new bills.

ADRY HAYWARD ON THE STAND.

His Testimony Goes Far Toward Fasten-
ing Guilt Upon His Brother

Minneapolis, Minn., Feb. 12.—The fourth week in the trial of Harry Hayward, charged with the murder of Catherine Gling, was heralded by the largest outdoor crowd since the trial began. Fully 5,000 people were massed in the street between Labor Temple and the jail. These people formed the overflow from the court room, which was already filled. There is liable to be another interruption in the trial. Juror Lindsey Webb was taken sick one week ago Saturday with a cold, which has assumed a severe form of the grip. Mr. Webb appeared in the jury box this morning looking decidedly ill.

Mrs. W. W. Hayward, mother of the accused, was present yesterday. She was dressed in deep black. Immediately after taking her seat Mrs. Hayward's eyes became riveted on the face of Adry, the elder son. She listened to his testimony told later on the stand in a dazed sort of helplessness, uttering no word until it was over and the bustle of the departing crowd brought her to a realization of her surroundings. Then she turned toward the accused man, affection and apprehension in the gesture as, stretching forth both hands, she cried brokenly:

"Harry, my boy, Harry!"

Harry Hayward turned in his chair and faced his mother. With the eyes of the crowd on his face he smiled in that confident way of his and grasped the extended hands.

"Mother," he said, "never mind, dear little woman, don't worry yourself. This will come out all right. It looks bad now, but—"

"Harry, Harry," gasped the mother again, "tell me, dear."

"There is nothing, mother. Do not worry about me. There is nothing to be frightened about."

Wearily and almost fainting, the poor woman sank to a seat. At that moment Adry Hayward walked up hurriedly, followed by a deputy. "Mother," he said in a half whisper, and instantly Mrs. Hayward was upon her feet. With one arm thrown about the neck of her eldest son she essayed also to clasp the younger. None of the deputies interfered. Then, as Adry tried to draw away, both arms encircled and held him.

"Adry, Adry," she whispered. Her voice was strained and tearfully beseeching. "Have you told the truth, Adry? Tell me, Adry, your mother."

"Ah, mother," he answered, in a choked sort of gasp, "you know it was the truth." Then he removed the circling arms from his neck.

Adry's story on the witness stand was told in the most straightforward manner, without a trace of that insanity the defense has charged him with. Every point of his story fitted in with the evidence given by Blixt. He described his frantic efforts to break up the scheme, his threats of exposure, and his subsequent visit to Elder Stewart. The story of how Harry attacked him in the office at the Nneida block because Adry said he would "hang if he killed Miss Gling" sent a thrill of horror through his hearers. The brother, the accused man, witnessed the mimic show with a smile. Horrible as it was, the story made no impression on the prisoner. Then came the story of the murder, Harry's caution to his brother not to "be out to-night, something may happen." Then came the crime itself and Harry's arrival at his brother's flat. As the last words of Adry died away the counsel for the defense returned to the attack.

"Are you not sure that this was all a horrid dream?" asked Mr. Erwin.

"No, no, it is too real to be a dream," and he turned his eyes to his mother and brother, "there is nothing more real on earth; I know it's a reality."

Thirteen Pilot Boats Missing.

New York, Feb. 12.—Thirteen pilot boats from this port are at sea and not spoken in a week. Shipping people are beginning to feel alarmed for the safety of the fleet now out. James Stafford's T. S. Stafford No. 18 was blown out to sea while acting as the "take-off" or station boat. None of the incoming pilots has spoken it since it was carried. The number of men aboard each of the other pilot boats is thought to be two pilots and a crew of five, which will bring the total close to 100.

THE PRINTER KICKS.

Says He Is Doing Too Much Work
Already.

Washington, Feb. 12.—Under the new printing act a difficulty has arisen with reference to the publication of consular reports which, unless remedied, will have the effect of curtailing their distribution. These reports cover a wide range of information. The department of state has an annual appropriation of \$20,000 to expend for this purpose. The public printer has taken the ground that under the provisions of section 9 of the new printing act, approved Jan. 12, he is not authorized to print a greater number of these reports than 1,000 copies during the present fiscal year except by order of congress. The department contends that it was not the intention of congress to depart from the established custom of printing and distributing these reports and has now requested congress to authorize the printing of as many copies of each as the appropriation justifies. This appropriation for the current fiscal year, \$20,000, will be sufficient for the purpose, providing the necessary authority to use it is obtained. The department is collecting a series of reports upon certain subjects of general interest, such, for example, as the railroad and steamship systems of the world, which it is proposed to publish in special numbers. The editions of these, also, would seem to be limited by the provisions of the new printing act, as construed by the public printer.

Statistics of the total coal production of Alabama, Georgia and North Carolina in 1894 are given in a statement compiled by the United States geological survey, prepared by E. W. Parker of the division of mining statistics. It is shown that Alabama produced 4,777,977 tons, valued at \$3,982,007, against 5,136,935 tons in 1893, worth \$5,096,729. This was a decrease of 758,958 short tons, or nearly 15 per cent, and a loss of value of \$1,114,725, or over 20 per cent. The average price per ton declined during the year from 99 cents to 91 cents. During 1893 the mines gave employment to 11,294 men, while in the year just closed 10,789 men were employed, showing that 505 men were thrown out of employment by the depression in the coal trade in Alabama alone. The total produce of Georgia in 1894 was 354,111 short tons, against 372,740 tons in 1893, a decrease of only 18,629 short tons or about 5 per cent. The value shows even a sharper decline than that of Alabama, being \$365,972 in 1893 and only \$299,290 in 1894. The average price per ton at the mines fell from 98 cents to 84½ cents, a decline of 13½ cents per ton.

The civil service commission has completed its investigation of the San Francisco custom house. The report has not been made public but it is understood sustains the charges of partisan removals and other violations of the civil service laws. Complaints of this character were filed at the bureau but Collector Wise denied them. Several other offices in that neighborhood have also been investigated by the committee.

HAS FULL SWAY.

Fire Rages in an Indianapolis Wholesale
House.

Indianapolis, Ind., Feb. 12.—Fire yesterday afternoon destroyed the five-story wholesale grocery house of George W. Stout on south Meridian street, in the heart of the wholesale district. Only the front wall of the building is left entire. The blaze progressed with such fierceness that several firemen who were on a ladder with a line of hose had barely time to escape by dropping the hose and sliding to the ground. Fireman Samuel Pugh was knocked from the roof by a stream but caught the cornice and went along it hand over hand a distance of twenty-five feet to a ladder. The wholesale drug house of A. Keifer & Co. was in danger a while but was saved, though the stock is damaged \$3,000 by water and smoke. The grocery stock was worth \$100,000 and the building \$20,000. The loss on the stock is not far from total, while the loss on the building will be about \$15,000. Stout owned the building. He carried \$82,500 insurance.

Firemen Injured at Kansas City.

Kansas City, Mo., Feb. 12.—Five firemen were seriously, three of them perhaps fatally, injured in a fire that raged in the west bottoms yesterday afternoon. The fire started in the building occupied by the Creamery Supply company. Their stock was entirely consumed and the building, valued at about \$15,000, was gutted. Reeves & Co., manufacturers of straw packing, the Campbell Paint company, and two or three other firms in adjoining buildings had their stocks slightly damaged by water. The total loss aggregates about \$100,000; insurance about half.

Hawaiians Effectually Outed.

Vancouver, B. C., Feb. 12.—Among the passengers by the Warrimoo was F. P. Holmes, private secretary of Damania, Hawaiian minister of finance, who is en route to England on a vacation. He says there has been no change in the situation since the arrival of the last steamer, but he believed the effectual manner in which the revolution was quelled will prevent any further uprising. The natives were much disgusted at the fiasco, and despised Wilcox for his cowardly surrender. In his opinion capital punishment will not be inflicted on the conspirators.

Petitions for Appeal to People.

Lansing, Mich., Feb. 12.—The prohibition party is exceedingly active, and is fairly flooding the legislature with petitions for the submission to the people this spring of a prohibitory amendment. Among the bills noticed yesterday was one providing for a general revision and recompilation of the laws of the state, and one to regulate the number of brakemen on passenger trains, the number to be arbitrarily based on the length of the train.

Is the Successor of John Wesley.

Toronto, Ont., Feb. 12.—Gen. Booth of the Salvation Army addressed 200 ministers here yesterday. He claimed he was the successor of John Wesley, and also compared himself to Moses.

Archduke Albrecht Dying.

Vienna, Feb. 12.—Archduke Albrecht, field marshal of Austria, is dying from congestion of the lungs.

FELL DOWN A WELL
FORTY FEET DEEPMRS. C. RUTH, OF RHINELAND-
ER, DANGEROUSLY HURT.

Her Skull Was Fractured, and She Received Numerous Cuts and Bruises, But May Recover—Judge Bailey, of Eau Claire, Denies That He Will Resign.

Rhineland, Feb. 12.—Mrs. Charles Ruth fell down a forty foot well to-day and was hauled out with ropes. She was badly cut and her skull was crushed but she may recover.

Eau Claire, Feb. 12.—Judge Bailey denies the report that he intends resigning his position.

MEAT SUPPLY SHORT.

Gotham Dealers Have Raised the Price
Per Hundred.

New York, Feb. 12.—Dealers in live stock and dressed beef express considerable concern about the meat supply. None of them pretend to say that there is any immediate danger of a meat famine, but they are unanimous in saying that the market will be seriously crippled unless the blockade on the roads leading to New York is raised in a few days. Advice received by New York dealers from their agents in Buffalo and Chicago are anything but encouraging. They say that it is next to impossible to get any consignments out of Chicago and that freight is stalled at Buffalo, with no immediate prospect of being moved out. But few consignments of live stock have been received since the middle of last week. The consignments that reached New York during the last two days had been a long time on the way. The advance in the price of dressed beef it is said, will amount all the way from \$1.50 to \$3 per 100 since the storm blocked the railroads. There is a corresponding advance in veal, mutton and pork. The poultry supply is also diminished and prices have been increased.

SAVED THE MINE.

Patsy Clark Takes a Fast Ride to Re-
cue a \$1,000,000 Property.

Spokane, Wash., Feb. 12.—A story has just leaked out that a man named Tappings, a barber, made an attempt to jump the famous War Eagle gold and copper mine in Trail Creek, British Columbia, valued at \$1,000,000. Patsy Clark, the millionaire miner, who is president of the War Eagle Company, was wired at Spokane of the situation. He, with D. C. Corbin, president of the Spokane & Northern Railroad, and also a stockholder of the mine, ordered out a special engine and coach, and a mile-a-minute gait was struck for Nelson, B. C., 200 miles north of here, where a new license was secured, the old one having expired. Under the Canadian mining laws it is necessary to take out a license in order to work or hold any mining property. Clark then immediately returned to the mines and showing Tappings the license, induced him to abandon his attempt to jump the mine.

COURT IN A QUANDARY.

Juror Coo's Illness Raises Some Serious
Questions.

Chicago, Feb. 12.—The continued illness of Juror Coo, although it had not been unexpected, created quite a stir when announced by Judge Grosscup at the opening of court this morning. It was not until nearly 11 o'clock that the judge took his seat on the bench, having spent the time in a visit to the CHIT House to ascertain the exact condition of the ailing juror and in a long conference in his chamber with the government attorneys and the attorneys for Debs and his associates. The result of his investigation he communicated to the jury immediately after court was called to order, stating that the juror was so seriously ill that it was impossible for him to be present at the trial within two weeks.

COULDN'T FACE DISGRACE.

Arkansas Business Man, Short in His
Accounts \$21,000, Takes Strychnine.

Fayetteville, Ark., Feb. 12.—J. L. Dickson, a prominent young business man of this city, committed suicide by taking strychnine. He had been cashier of the McIlroy Banking Company up to Jan. 1, and since that time an investigation of his books showed a shortage of \$21,000. His bondsmen were so notified, and they went to his residence to get a statement from him. While they were there, he went out, took the poison and died in fifteen minutes.

Missouri Frozen Over.

Kansas City, Mo., Feb. 12.—For miles through Kansas, the Missouri River is frozen solid from bank to bank and farmers are becoming apprehensive lest there will be no means of irrigating their lands. Not alone the Missouri, but most of its tributaries in Kansas are also almost dry. At this point the river has not before been frozen solid for fifteen years. As many towns depend upon the Missouri for drinking water and another source of hardship is felt in this regard.

Mr. Lexow's Ambition.

New York, Feb. 12.—The World says: "Senator Lexow has set the stakes of his ambition. He wants to be the next republican candidate for governor. He announced himself to a party of friends at the Hotel Metropole recently, and one of the gentlemen present is authority for the statement that the Nyack statesman pounded the table as he declared: 'The people of this state are with me and will be with me, Parkhurst or no Parkhurst.'"

Relief for Sufferers.

Tuscola, Ill., Feb. 12.—Four car loads of provisions, clothing and grain have been raised by the people of Tuscola for Nebraska sufferers but there is some delay in getting cars. The material is ready to be forwarded as soon as the railroads furnish the cars. Villa Grove and Camargo also have two cars ready.

JUBILEE IS TO END WITH SOCIAL JOYS

CONGREGATIONAL ANNIVERSARY CLOSURES TO-NIGHT.

Reunion Will Be Held at the Church Parlors at Five O'clock, Followed by a Banquet—The Election Held Yesterday—Papers Read at Today's Session.

SOCIAL exercises will close the golden jubilee at the Congregational church this evening. At five o'clock the reunion of the church and their invited guests will be held at the church parlors and at 6 o'clock the banquet of which toasts and reminiscences will be a feature, will be spread in the Sunday School room. The session yesterday afternoon closed

with the election officers as follows: Senior Deacon (for life)—Truman Hollister. Senior Deacon (six years)—Josiah T. Wright. Junior Deacons (two years)—Christian Thompson, S. B. Lewis. Treasurer—Miss Susie Jeffris. Clerk—J. M. Whitehead. Sunday School Superintendent—W. S. Jeffris. Last evening's session was of great interest. A memorial of Rev. Hiram

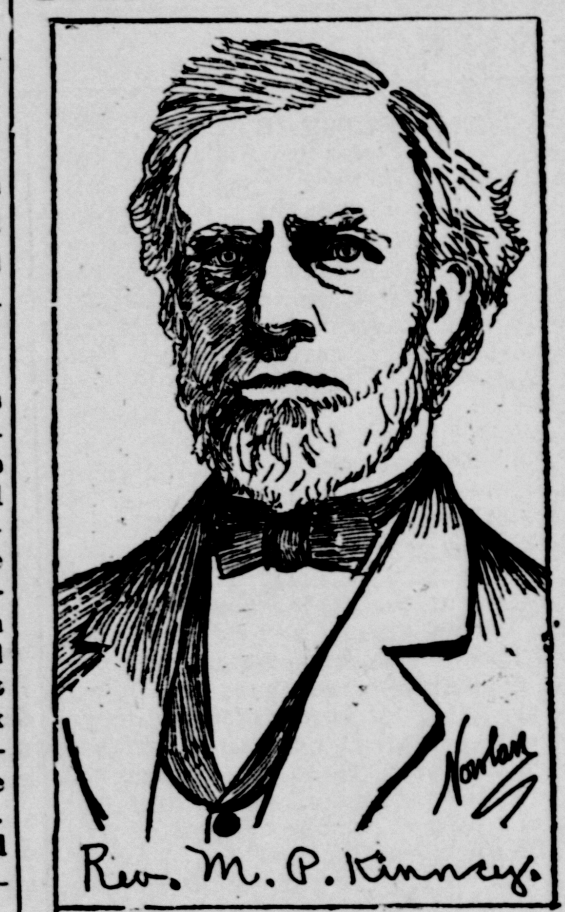

Foots by Deacon James Sutherland was read and listened to with attention. He told of the life of the first minister who was struggling to put a young church on its feet, in a very interesting manner. When he finished the memorial a handsome crayon portrait of the deceased pastor was presented to the church by the family of the deceased which will be hung in the church parlors. "The Church and Its Young People" was the subject of Miss May Cullen

ingham's most interesting paper. She outlined the work done by the societies composed of the younger members of the church and Sunday school in a way that pleased her hearers. After music by the ladies' quartette, W. S. Jeffris read a history of the church choir. He told of the early

choirs that had come with the late years and his paper was replete with good things that the audience appreciated fully. A picture of the old

choir was shown in connection with the paper.

Session This Morning.

Hon. Alexander Graham read the first paper when the assemblage was called to order at 10 o'clock this morning. "Our Church Building" was his subject and he made it one of interest. He told of the various "meeting houses" from the old "red school house" to the present handsome structure and the effort that they represented.

"Woman's Work in the Church" was the subject assigned to Mrs. J. T. Wright and Mrs. S. M. Jerome. They handled it well and told of the good accomplished by the various ladies' organizations. Professor Blaisdell spoke of "The Church and Education," a theme with which he was perfectly familiar and he dealt with his subject in an entertaining manner.

The reading of memorial letters and addresses followed and the session closed with a hymn and benediction. With this evening's social events the exercises will end.

BURNT CORK AND FUN HELD FULL SWAY

BENEFIT PERFORMANCE LAST NIGHT WAS VERY GOOD.

Musical Numbers Were Catchy and Well Rendered, While the Specialty Work Was All of a High Order—House Filled to the Doors—Performance Repeated Tonight.

ANAGER Stoddard was carrying a 6 x 9 s mile with him as he hung out the "sanding room only" sign at the Myers Grand last night. The cad bearing that legend had stood in the corner for a long time, but the dust was brushed off, and once more it was in the breeze. Every seat was sold long before it was time to send up the curtain, and Arthur Jenkins grew hoarse announcing that there was "nothing left down stairs." The audience was the largest of the season and the performance of the Imperial entertainers was worthy of the patronage given it. The stage setting for the first part was very neat, the orchestra being seated on an elevated platform behind the mandolin club. The latter organizations were playing a march when the curtain went up and the company filed in and took their seats. W. A. Patrick was introductor; C. S. Putnam and Harry Phillips played the bones, while Charles Blay and L. A. Pressler handled the tambos. The vocalists were George G. Paris, H. P. Robinson, Dr. Charles Pearce, D. D. Bennett, C. N. Vankirk, William Garbutt and Frank Horning. The opening chorus was "All Hail Us Ye Free," and was sung with fine effect. A round of applause greeted George G. Paris as he stepped forward for the first solo. "Out on the Deep" was the piece chosen, and it suited the singer's fine bass voice admirably. After Mr. Paris had responded to two encores, William Garbutt sang "The Pride of the Ball" in a very effective manner. Mr. Garbutt has a sweet tenor voice, and the selection gave him ample opportunity to use it. Charles Blay's song, "I Won't Go Down to Riley's Any More," brought down the house, his dialect being very good. D. D. Bennett's baritone solo, "When the Pilot Takes Command," was rendered in his usual finished style, and won him an encore. Harry Phillips sang "When They Straighten Out the Colored People's Hair," and did it well.

Encore Came Thick.

The second division opened with Arnold Tift and Al. Smith on the ends and their comedy work was excellent. "Whistling Yellow Dinah" was Mr. Smith's song and he had lost none of his old time ability. They made him sing it several times and laughed at his antics with the tambourine until their sides ached. "Rocked to Sleep by Granny" gave C. N. Vankirk's fine tenor voice full sway and he sang the catchy song in a way that brought him several encores. Harry P. Robinson's bass solo was finely rendered and showed that he not only had an excellent voice but thoroughly understood how to use it. Arnold Tift's song "Dar's a Water Melon Spoiling Lown to Johnson's" afforded much amusement and Mr. Tift had to sing it several times.

A selection by the band preceded the balance of the performance and their music was of a very high order. Great improvement has been made of late and the organization is now a credit to the town. Charles Patterson made a great hit in his comedy sketches. Mr. Patterson has a great deal of talent and a very pleasing voice and his work was one of the features of the evening. "Pretty Little Ruby," a song and dance, was cleverly given by Messrs. Putnam, Pearce, Preller, Phillips, Horning and Blay. The air was catchy and the number pleased the audience greatly. The instrumental trio by Messrs. Hatch, Barlow and Bauman was a very pleasing number, the mandolins and harp blending nicely. William Cody's song and dance was very well executed. He has a pleasant voice which he uses to advantage and is very light on his feet. Several encores were given him and his part of the performance was entirely satisfactory.

Specialty Work All Good.

Orson Eaton's clog was well executed and Messrs. Blay, Horning, Pressler, Pearce and Putnam made a hit in "What do You Think of Hoolah?"

The Imperial Mandolin club composed of Charles Johnson, George Bauman, Richard Barlow, Harry Haggart, George Robinson and Ned Whiton did nicely and the trapeze act of Lewis Locke and Ed Miller was very good. "Mahoney's Fourth of July" by Messrs. Bennett, Robinson, Patterson and Patrick was laughable and the performance closed with Queen Isabella, taken from "1492." Nearly every number on the program was encored and the performance lasted until 11 o'clock. The quartette composed of C. N. Vankirk, William Garbutt, D. D. Bennett, and George G. Paris sang the choruses with the soloists which added charm to these numbers. W. A. Patrick as an introductor did exceptionally well as he spoke distinctly and could be heard all over the house. D. D. Bennett was director of the performance and his drilling was shown by the smoothness with which the performance passed off. Prof. John M. Smith led the orchestra and their excellent work won them many compliments.

It is just here that the peculiar and wonderful action of Dr. Greene's Nervura blood and nerve remedy is so strongly seen. The very first dose often produces a change for the better and from that minute the nervous symptoms grow less.

The child who has fits, St. Vitus dance, or nervous diseases, generally has poor blood. Right here again come in those virtues which have made Dr. Greene's Nervura blood and nerve remedy indispensable to the sick. It makes the blood rich, pure and of vigorous circulation.

Mrs. J. Learmouth of 776 Broadway, South Boston, Mass., who had employed physicians unsuccessfully, finally determined to give her child Dr. Greene's Nervura blood and nerve remedy.

"At ten years of age," said Mrs. Learmouth, "my daughter became affected with a nervous condition which soon developed into St. Vitus' dance. It was pronounced by the attending physician to be a very severe case.

"The mouth would be turned spasmodically far to one side, the hands and arms were restless and constantly twitching. Her limbs also were weak; her ankles bent under her so that it was almost impossible to walk.

"She was so nervous that she would scream almost like a maniac and then have fits of crying. After two months' treatment without a cure I concluded to try Dr. Greene's Nervura blood and nerve remedy.

"Three bottles entirely cured her. She is now thirteen years old and has been well ever since, and today is a picture of health."

Fits will never stop themselves. Remember that. The one sure way to permanently cure them is to use Dr. Greene's Nervura blood and nerve remedy. It quickly and completely cures St. Vitus dance, epilepsy, hysteria, and all manner of nervous spasms and convulsions as well as that nervous irritability which often results in fits. If your infants or children are restless or sleepless, cry out, or grit their teeth at night, they are in great danger of nervous troubles. Give them Dr. Greene's Nervura blood and nerve remedy. It will make them strong and well. This remedy is surely vegetable and perfectly harmless for children of any age. It is the discovery of Dr. Greene of 35 West 14th St., New York City, the most successful specialist in curing nervous and chronic diseases. He can be consulted free, personally or by letter. Use his great remedy and consult him at any time.

Fits Are Terrible Things, But There Is One Sure Way To Conquer Them.

Every time a child has a fit it takes a fearful stride towards the grave. They sap the very life's blood and drag from the wasted nerves the foundation of life itself. The whole nervous system is affected, and the nerve centres are fearfully weakened.

It is just here that the peculiar and wonderful action of Dr. Greene's Nervura blood and nerve remedy is so strongly seen. The very first dose often produces a change for the better and from that minute the nervous symptoms grow less.

JESSE JAMES' RIFLE WAS A NOVEL FAKE

OFFER FOR THE BANDIT'S GUN WAS A BOGUS ONE.

At Least That's What the People Who Tried To Buy It Now Think, as the Man Who Owned It Has Gone—Interesting News From Country Towns.

Upon the subject of "Mr. Jackson, of Denver," Beloit people could write quite a book just now. Mr. Jackson is the etherial gentleman who wanted to give up \$2,000 for Jesse James' old rifle. He wrote to Beloit officers for that sum for the gun and shortly afterward the weapon turned up. Of course Mr. Jackson of Denver, had no connection with Mr. Hughes who owned the gun. The latter didn't even know the value of the arm although he had bought it from one of the James gang. Beloit people are now confident that it was a swindling scheme and that Hughes, who brought the now famous gun to Beloit was a party to the fraud. The last chapter came when Hughes showed Tom Hall, who had possession of the gun, a letter purporting to have been sent from Randolph, Wis., telling Hughes to hurry back to Bando ph as there was a gun, there offering big money for a part, "which" said the writer, "I think is the rifle you got from me a while ago." Hughes said he guessed he would take the gun up and see what there was in it. Hall refused to give up the gun and Hughes left. As he hasn't been seen since the Beloitites are satisfied that the whole thing was a fake.

A WEEK NEWS FROM MILTON

Iudua Lyceum Gives a Charming Entertainment—Other News Notes.

MILTON, Feb. 12.—The Iudua Lyceum gave a charming entertainment, at the college chapel Monday evening. The programme was as follows: Prayer; music, "Lady Bird," Chicago Lady Quartette; recitation, "The Roller Coaster," Samantha Allen; paper, "A Practical Talk With Girls," Ruth Ashmore; piano solo, "Paderewski's Minute," J. D. Paderewski; reading, "Pauline Pavlova," Miss Imogene A. Dunn; music, Chicago Lady Quartette; speaking tableaux; vocal solo, "Quando shiu d'il, Labbro" (Arditi) Adeline Patti; drill. The remains of Victor Bacon of Lime Kidge, were brought here for burial Saturday. Deceased was a former resident of this village and a cousin of Myron and George Bacon.

The spell of weather which has afflicted this region for several weeks, beats the record, when you take the whole country into consideration. Shovelers were employed here by the railroad company on Thursday, Friday and Saturday. In the cuts between this place and Lima, snow embankments were built in the fields for the purpose of preventing the snow from drifting onto the track. Eight persons offered themselves for baptism at the Seventh-day Baptist church Saturday morning. Dr. Henry Palmer was called here Friday in consultation with Dr. Borden on the Charles Anderson case. He found the patient doing well, and suggested no change of treatment. Freight trains were numerous over the St. Paul road again on last Sunday. Be present at the literary and musical entertainment at the Methodist church this evening. It is the event in the Epworth League lecture course and deserves liberal patronage. The funeral services of the late David Smith were held Saturday afternoon at the homestead in the town of Harmony and the burial took place here. All the children except Mrs. McArthur of Cedar Rapids, Ia., were present, illness preventing her attendance. The revival meetings last week were largely attended despite the intense cold. They are to be held Thursday, Friday and Saturday evenings only, this week. Clem W. Crumb left Monday on a two weeks' trip through Iowa in the interest of the Staver & Abbott Manufacturing Company. Carl Crumb is confined to the house with a severe cold. There was no school in Professor Buell's department Monday, owing to his being detained at Beloit by sickness in his family. F. C. Dunn has been confined to the house for a week by sickness, but is able to be out again. Several of his children are now ill.

A VETERAN'S VERDICT.

The War is Over. A Well-known Soldier, Correspondent and Journalist Makes a Disclosure.

Indiana contributed her thousands of brave soldiers to the war, and no state bears a better record in that respect than it does. In literature it is rapidly acquiring an enviable place. In war and literature Solomon Jewell, well known as a writer as "Sol," has won an honorable position. During the late war he was a member of Co. M, 2d N. Y. Cavalry and of the 13th Indiana Infantry Volunteers. Regarding an important circumstance he writes as follows:

"Several of us old veterans here are using Dr. Miles' Restorative Nervine, Heart Cure and Nerve and Liver Pills, all of them giving splendid satisfaction. In fact, we have never used remedies that compare with them. Of the Pills we must say they are the best combination of the qualities required in a preparation of their nature we have ever known. We have none but words of praise for them. They are the outgrowth of a new principle in medicine, and tone up the system wonderfully. We say to all, try these remedies."

Solomon Jewell, Marion, Ind., Dec. 5, 1892. These remedies are sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles \$5, express prepaid. They positively contain neither opiates nor dangerous drugs.

EVENING GOWNS.

Gauzy Skirts Are Weighted by Flounces or Flowers Around the Bottom.

Inexpensive light materials, suited to the wear of girls, are produced in pretty pale tones of color, such as maize, canary, daffodil, yellow, sky blue, turquoise, mauve and green. A favorite trimming for the skirt is a deep vandyked flounce of the stuff itself, with single blossoms of snowdrops, hyacinths or daisies arranged in the folds. These sometimes follow a vandyke line as well. A blue and white striped gauze is trimmed with two flounces of white dotted net, headed with Parma violets, an unusual combination of color which is in some favor just now. Many of the bodices are finished with black or colored velvet across the chest and round the waist, and the large butterfly sleeves have the two "wings" separated by bows of the velvet.

The garniture of ball gowns is now frequently placed on the right instead of the left side to avoid the danger of its being crushed and losing its freshness during round dances.

Silk stockings and satin shoes matching the dress in color are usually favored for evening wear and white or cream suede

EVENING GOWN.

gloves. Nevertheless certain fashionable Parisian ladies wear only black shoes and hosiery, even with white evening gowns. Fringes of pearl and other beads are much employed on evening gowns. The fringe depends from a yoke or from the edge of the décolletage, falling over the sleeves, back or breast.

A novelty for ball gowns is accordion plaited tulle or crape having a line of beads on the outer edges of the folds.

Dancing skirts made of thin goods are very wide, but are weighted around the foot with flounces, ruffles or flowers in order to keep them from enveloping their wearer in a cloud of drapery when she waltzes.

The gown illustrated is of Nile green satin. The skirt has three godets behind, and the lower edge is trimmed with a band of old gimpure. Above this falls a thickly plaited flounce of white mousseline de soie, headed by a garland of La France roses without leaves. The corsage is plaited at the waist, which is encircled by a plain satin belt, from the left side of which falls a garland of roses. The 1830 décolletage is edged with lace and roses, and the balloon sleeves are draped by a cross-piece.

JUDIC CHOLLET.

Wooden Clothes.

Time was when reference to a "wooden overcoat" were understood as the irreverent equivalent of measuring a man for a coffin; but it would seem that suits of clothes made of wood may soon be an accomplished fact.

The writer is indebted to a merchant of the city of cloth—Leeds—for a glimpse of samples of a species of cloth, and also of a sort of cotton made wholly out of wood fiber, these two woven pieces having all the appearance of attractive articles of their own kind. Both these novel textile fabrics are the result of prolonged experiments with pinewood and spruce, which have been ingeniously torn to pieces in the first instance, and then bleached by an elaborate chemical process.

After chemical treatment in many ways, the wood becomes a soft, white pulp, which is run through perforated plates, the resulting threads being dried by a heating process. These threads can be woven, and the material is susceptible of taking readily any sort of dye. The fabric can be made at an astonishingly cheap cost; it looks well and has a certain amount of strength (experiments in this direction $\frac{1}{4}$ and $\frac{1}{2}$ (experiments in this connection are now being carried out), and its appearance on the market, sooner or later, is absolutely certain, especially in the form of imitation cotton.—Edinburg Scotsman.

A Terrible Visitant.

Pain is always a terrible visitant, and often domiciles itself with one for life. This affliction is preventable, in case of rheumatism, by a timely resort to Hetter's stomach Bitters, which checks the encroachments of this obstinate and dangerous malady at the outset. The term "dangerous" is used advisedly, for rheumatism is always liable to attack the vital organs and terminate life. Notestimony is more conclusive and concurrent than that of physicians who testify to the excellent effect of the Bitters in this disease. Persons incur a wetting in rainy or snowy weather, and who are exposed to draughts, should use the Bitters as a preventive of ill effects. Malaria, dyspepsia, liver and kidney troubles, nervousness and debility are also among the ailments to which this popular medicine is adapted. For the infirmity, soreness and stiffness of the aged it is highly beneficial.

Promptness is a commendable virtue. That's why we offer you One Minute Cough Cure. It is prompt in relief and prompt in curing. That is what it is made for. C. D. Stevens.

"Nothing Venture, Nothing Have," Rev. John Reid, Jr., of Great Falls, Mon., recommended Ely's Cream Balm to me. I can emphasize his statement, "It is a positive cure for catarrh if used as directed."—Rev. Francis W. Poole, Pastor Central Pres. Church, Helena, Mon.

It is the medicine above all others for catarrh, and is worth its weight in gold. I can use Ely's Cream Balm with safety and it does all that is claimed for it.—B. W. Sperry, Hartford, Conn.

If the Baby is Cutting Teeth, Be sure and use that old and welltried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

A Good Investment

FOR YOU.

The Beautiful is Here, Why not enjoy it?

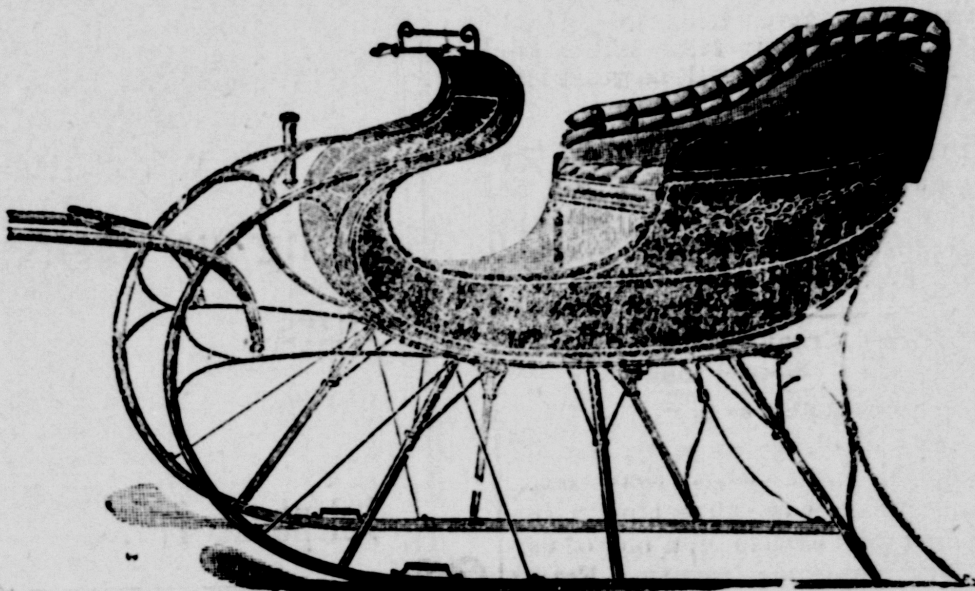

We make it possible for any and everybody to own a sleigh. We are closing out our stock of sleighs. No words to express our opinion. the prices are all that are necessary.

A handsome Portland Sleigh, best made, always sells \$30 for \$40 with profit off

Swell Body Sleighs, beautifully made, as a rule sell for \$35, but as we are closing them out they go for \$20

A good second hand bob sled, also one good second hand cutter one or two seats.

It's displaying wisdom to buy a sleigh now.

"A GOOD SPEECH . .

is a good thing." The public verdict is that our

Cash or Easy Payment

system, with prices as low as any cash prices in the city, has done more to benefit many homes in Janesville than any other business stroke ever adopted. We are still selling

FURNITURE

on those easy terms. We won't say it is the cheapest, the furniture smiles and tells you that. Come in and sit down.

Public Opinion.

The public hardly ever go wrong and what becomes the settled opinion of the public is usually about right. In proof of this, notice public opinion concerning

THE FAIR,

103 W. Milwaukee St.

How persistently unanimous it is in declaring the place "to supply your home."

NEW HAIR GARMENTS and side combs, the latest patterns, very handsome, just received, anything you wish, just note the prices. 10, 15, 20, 25.

FINGER RINGS & STICK PINS.

A full line of all descriptions, not cheap in value because they are not in a jewelry store, but cheap in price. Convince yourself of these assertions.

SCHOOL TABLETS,

just what the boys and girls are clamoring for every day. Get that boy one, get that girl one cheap. It takes little to make them happy.

NEW INVOICE OF LAMPS

came in yesterday. Not cheap lamps in point of value, but cheap in point of price. We know it. The knowledge can be imparted to you.

Heavy Winter Und'w'r & Clothing

also Overshirts, Gloves and Mittens at just what we paid the factory. We lose the freight. The only house in the city making these overtures is at 103 W. Milwaukee.

THIS DAY IN HISTORY

1746—Thaddeus Kosciuszko, Polish patriot, American soldier and French citizen, born near Novogrod, Lithuania; died 1817.
 1791—Peter Cooper, the American philanthropist, born in New York city; died there 1882.
 1800—Abraham Lincoln's birthday.
 1851—Gold discovered in Australia. The first known discovery of gold in Australia was made in 1851, but the fact was suppressed at the request of the governor of New South Wales, who feared its effect on the 45,000 convicts of England's penal colony collected there. Again in 1841 a geologist made the discovery; that also was suppressed. The discovery of 1851, which led to extensive workings, was due to a California miner named Hargreaves.
 1871—Alice Cary, author, died.
 1886—Horatio Seymour, statesman, died in Utica, N. Y.; born 1810.
 1891—Admiral David Dixon Porter, distinguished Union commander of the civil war died in Washington; born 1813.
 1894—A blizzard of rain and snow prevailed across the northern belt of states from New England to Nebraska.

THE GOOD TIME COMING.

"The verge of ruin," as calamity howlers are wont to speak of the national conditions now prevailing, belongs to the same class of twaddle that always emanates from croakers, and short sighted people, who never bank on the future or take stock in any thing beyond their grasp. With a nation whose national wealth surpasses any other in the world, and with undeveloped resources of gigantic magnitude, what great amount of permanent harm can the democratic party do with unlimited and unrestrained freedom, in four years.

Before the dawn of the next century, the nation will be again in line, for self support and self respect, with the new debt of democratic origin wiped out and the war debt materially lessened. One year of liberal revenue which would hurt nobody, on the luxuries, beer, whisky, tobacco, cigars and cigarettes, would accomplish the former, and a wisely distributed tariff or tax, according to democracy, would contribute largely to the latter and at the same time give the country the greater blessing of national prosperity.

The past two years have been years of idleness, from which heavy losses have resulted, unemployed labor has lost enough to pay the running expenses of the government for ten years, while the loss of capital, no man can compute. Industries have been paralyzed, furnace fires have gone out, exports have dwindled, and business of every kind has been depressed and demoralized.

The political blunder of 1892 was recognized before it was fairly recorded, and with characteristic impulse the nation rallied at the first opportunity. The voice of 1894 was the voice of authority. It meant more than the defeat of the democratic party.

It echoed throughout the length and breadth of the land "America's cans," and prosperity for tea for America. A party with all it all. The republic of perfection was may lack in the way. Moses that again declared to be the should lead the people. That the party is equal to the emergency. A not a debatable question, because it is the verdict of the large majority.

A forecast of the not distant future reveals the hum of industry and the contented toiling masses, happy in the knowledge of the fact of employment, the greatest blessing that comes to any life.

What cares the man for the tariff on wool, or iron, or coal, or anything else for that matter, when each succeeding Saturday night finds him with a well filled purse as the result of honest toil? He is happy and contented because he has solved by experience the one great problem in political economy, and he will not hesitate to tell you that he prefers to pay his proportion of the tariff tax backed by steady and remunerative employment, rather than have every thing free as the air, with nothing to do but breathe and walk around. In the good time coming these conditions will again prevail, and out of the rubbish of democratic folly, will dawn a new era of prosperity and general welfare.

Don't croak.

The friends of protection find correlation in the fact, that while the McKinley bill was not perfect, the government was able to meet liabilities, without borrowing money or issuing bonds, while it was in force. The democratic substitute makes it necessary to do both and still the country does not prosper.

As a financial prophet Secretary Carlisle is as unreliable as the average weather prognosticator. His first estimate of the 1894 deficit was \$25,000,000, which he was obliged to multiply by four. This year he predicts an ex-

cess of about \$25,000,000; but the figures won't do to bank on.

"In God we trust" is a good motto for an honest dollar, but when this county adopts a 50 cent draft as a standard, the draft on providence is a little unjust, and has a tendency to weaken credit in this world, without laying capital for the next.

The republican party and prospective good government is behind every bond issue that President Cleveland may authorize, which insures the prompt payment of interest and principle when due and makes the investment desirable.

A pleasant study for the farmers these long winter evenings might be an estimate on the amount of fifty cent wheat that will be required to pay the interest on democratic bond issues.

A pleasant reminder of how democracy "lightens the burdens of the people" is the income tax blanks that are now being circulated.

\$16,000,000 can be saved by congress before the 18th inst., by passing an act to authorize the sale of 3 per cent. gold bonds. Will they do it?

Two years of democracy and the public debt increased \$162,400,000, but we have had the "change" and ought to be happy.

Forty-two republicans stood by Cleveland in his effort to get good financial legislation out of a democratic house.

The sale of bonds means the borrowing of money, and this in times of peace, means imbecility in legislation.

Illinois Bill Aims at Extortion at the St. Louis Bridge.

Springfield, Ill., Feb. 12.—Few senators made their appearance at the session yesterday. Senator Green introduced a bill which seeks to put under the supervision of the railroad and warehouse commission that part of the St. Louis bridge situated in Illinois and all sleeping and dining cars in the state. The bill amends the railroad and warehouse law relating to the prevention of extortion and unjust discrimination in the rates charged for the transportation of passengers and freights on railroads in this state. The bill was referred to the committee on judiciary. The senate adjourned until 10 o'clock Wednesday morning.

About a dozen members were in their seats when the house was called to order at 5 o'clock in the afternoon. Mr. Merritt said in view of the fact that to-day is a legal holiday he would move when the house adjourn it stand adjourned to 10 o'clock Wednesday morning. The motion prevailed and on motion of Mr. Callahan the house adjourned.

Want Inquiry Held at Fort Wayne. Indianapolis, Ind., Feb. 12.—A petition from sixty of the employees of the school for the feeble minded was read in the senate yesterday, asking that the proposed investigation be held at Fort Wayne, where the school is situated. In the house the bill raising the age of consent from 14 to 18 was returned with an amendment placing the limit at 16 years. On motion of Representative Fowler the figures were restored to 18. The contest of P. M. Miller (rep.) for the seat representing the counties of Dearborn, Ohio and Switzerland, held by A. J. Bowser (dem.) was decided in favor of Miller by a vote of 45 to 42.

Make a Rich Hunt of Papers. Pittsburg, Kas., Feb. 12.—The office of the Long-Bell Lumber company in this city was entered by burglars yesterday morning, the safe blown open and \$125,000 in notes and mortgages stolen. There was no money in the safe. The work bore evidence of being done by professionals.

Gold to Come to America. London, Feb. 12.—In its financial article the Standard says: "It is estimated that gold to the amount of \$4,000,000 (\$20,000,000) to \$5,000,000 (\$25,000,000) will leave London for the United States in connection with the new American loan."

Takes Her Babes to an Icy Death. Petersburg, Pa., Feb. 12.—Yesterday Mrs. Seibert, with the excuse that she was going to visit her parents on the other side of the Ohio river, took her two children and started to walk across the ice. She sought an opening and with a child under each arm jumped in. Her husband, knowing the condition of the ice, started to find her. As he was horrified to find his wife and children lying dead at the bottom of the river. The children had their arms clasped around their mother's neck.

WITH TICHBORNE.

Captain Anderson Throws a Little Light Upon the Famous Case.

When Captain Anderson, of the Maritime Exchange, Philadelphia, read that the real heir of the Tichborne estate had been found in an Australian lunatic asylum he said:

"Well, I am not surprised. I have known the whole story, so far as a man can know anything, without any certified data to go upon. I was chief officer of the bark Hoppet, Captain Westerberg, when he sailed from Rio, in October, 1857, bound to Melbourne. Among our passengers were two men who attracted considerable attention. One was a big burly man and the other a slim youth with a small black moustache. The former was hail-fellow-well-met with everybody, but the latter was very retiring and showed a morose disposition, seldom answering the courtesies of passengers who casually greeted him. They were evidently partners, however, and both seemed to have an unlimited command of money. We reached Melbourne about the middle of December of that year, and they both landed and that is the last I saw of them.

"During the trial in England I came across the photographs published, and I recognized the big fellow and young Tichborne as our mysterious passengers on board the Hoppet. The big man was called Tom by his companion, while the younger man's name was Deslille, but his companion often addressed him as Roger. The statement that he was lost on the passage from Valparaiso to Rio Janeiro is wrong. According to the statement of the defeated claimant, the vessel, the Belle, was bound from Rio to Melbourne. Now, no such vessel could be traced in Lloyd's list or the Shipping Gazette. Why? Simply because she did not exist. This man, Tom Castra, and young Roger Tichborne sailed in our vessel and were landed at Melbourne all safe."

ANTI TOXINE WORKS ON LOCAL PATIENTS

TWO SUFFERERS ON THE ROAD TO RECOVERY.

Dr. Palmer is confident that if nothing unforeseen happens, they will soon be on their feet again—Beloit drunk in jail here—Other news items from about town.

The two Janesville diphtheria patients who are receiving the antitoxine treatment are improving finely, and Dr. Palmer expresses the opinion that both will recover. The first patient, upon whom the disease had developed in an aggravated form, was given three doses of the antitoxine and at once exhibited symptoms of improvement. Of course there are many unforeseen circumstances in the progress of diphtheria that may yet turn for the worse, but baring something of this kind the trial of the new remedy is now thought to be a success.

The benefit performance of the Imperial entertainers will put a neat sum in the treasury of the Imperial Band. The members of that organization should, and doubtless do, feel under great obligations to those who took part in the entertainment, more especially to W. A. Patrick and Charles Blay, who conceived the idea, and then worked hard to carry it out. On them fell much of the work, and it was not neglected.

Mr. and Mrs. W. P. Sales entertained a whist club last evening in a novel manner. The affair was a "valentine party" and valentines served as decorations and souvenirs. A box for offerings for the city hospital was placed on one of the doors and the presents given the guests were decidedly unique.

COUNCIL TO DEMAND A FULL SETTLEMENT

EX-TREASURER MURPHY WILL BE CALLED UPON.

Committee Appointed To Talk with Him Concerning the Money That the Bondsman Did Not Pay—Charter Committee Make Their Report—Other Business.

A demand will now be made on ex-treasurer Murphy to make a full settlement of his account with the city. Alderman Child made a statement to the council last evening, showing that Mr. Murphy was still owing the city \$1,300, and that no demand had been made for settlement. Ample time had been given Mr. Murphy and his bondsmen to examine Expert Card's report, and after Mr. Murphy had examined the report with an expert, no material errors had been found, and no one knew but what Mr. Murphy was ready to settle. He therefore moved that the finance committee, and city attorney be directed to make a demand on the ex-treasurer and effect a settlement. The motion was adopted. Alderman Child also stated that the committee were unable to agree on a settlement of the accounts of ex-Marshall John W. Hogan, Marshal Theo. Acheson, and Patrolman John Kruse, and moved that two more aldermen be added to the committee. The mayor appointed Alderman Sutherland and McLean.

Complaint About Paving.

The clerk read a protest from Sylvester Morgan, agent of the Myers estate, stating that he had paid the sum of \$815.44, on account of the East Milwaukee street pavement to prevent a cloud in the title of the property. A similar protest was read from Charlotte Bigelow, who had paid \$69.80, for the same improvement. The protests were referred to the highway, street and bridge committee.

The petition of Dr. Henry Palmer, to run a telephone wire from his residence to the hospital on Mineral Point avenue, was granted; and Health Officer Robinson submitted his January report, showing that there had been five cases of diphtheria and eleven cases of scarlet fever; all convalescent.

Alderman Baines of the finance committee, reported in favor of allowing sundry bills which was concurred in and Alderman McLean of the judiciary committee reported the January report of the marshal and judge of the municipal court as correct and they were placed on file. Alderman Child of the fire and water committee introduced an order directing the mayor to borrow \$2,000 for the fire and water fund, which was adopted. He then moved that the purchasing committee be dispensed with, stating that each one of the committees were better qualified to make their own purchases. The motion was adopted by a vote of 7 to 2.

New Hose Bought.

On motion of Alderman Child, the action of the fire and water committee, in the purchase of one thousand feet of fire hose was approved. Alderman Rich introduced an order instructing the clerk to draw an order in favor of Brown & Ryan, payable from the general fund, for \$403.49, this being the amount due on account of paving the street railway right of way. This drew out quite a discussion. It was stated that the street railway company would reimburse the city, and the city being liable for the work the order was adopted.

Dr. Henry Palmer, chairman of the charter revision committee, made a verbal report, stating that the committee had requested City Attorney McElroy and Assemblyman Kimball to look into the matter and draw up a bill to be submitted to the legislature. The committee, he said, had only considered such matters as required immediate attention.

BILLS Likely To Pass.

City Attorney McElroy stated that two bills were now pending in the legislature, and he thought both would become laws. Either one of these would give the city ample relief. He would visit Madison today to confer with the chairman of the committee on cities. Assemblyman Hansen, of Beloit, and Senator Weeks, of Whitewater, would assist Assemblyman Kimball in securing the passage of the relief measures.

Alderman Child introduced the following resolution, which was adopted: Resolved, By the mayor and common council of the city of Janesville, that the action of Hon. Fenner Kimball and City Attorney McElroy in endeavoring to secure such legislation as may be necessary to relieve the city of its present financial embarrassment, be and the same is hereby approved, and they are hereby instructed to use all effort to secure such legislation as may be needed to enable the city to levy taxes based upon the assessed valuation of property and not upon certain fixed sums as now provided by the city charter.

Notice to Stockholders.

Following a resolution of the Board of Directors of the Loan, Savings and Building Association, I will, until February 25, pay to members of the association who hold stock in either of the first five series, their dues together with 10 per cent interest on same if they will withdraw. This will continue until the surplus funds in the treasury are exhausted.

BAD MEN CAUGHT RED HANDED

Crooks Well Known to Janesville Police Jailed at Jefferson.

Two bad men who are well known to Janesville police, are in jail at Jefferson. They are Charles Smith and William Murphy, who were arrested by Chief Acheson and Officer Cochrane some time ago. The Jefferson police got them while they had the stolen goods in their possession and they will stay in jail until next September, waiting for trial. They were well equipped with burglars' tools and but for the watchfulness of the sheriff they would have broken jail. Sheriff H. M. on was down from Jefferson today and told Chief Acheson of the capture. Smith was arrested here before, the police suspecting him of burglarizing Hon. Alexander Graham's house.

PROF. SCOTT'S SECOND LECTURE.

Discussed the "Monopoly Problem" at the Court Street Church.

Professor W. A. Scott, Ph. D., of the State university, gave the second of the Fortnightly Club's University Extension lectures at Court Street M. E. church Sunday school rooms last night. "The Monopoly Problem" was his subject and he handled it in a learned and entertaining manner. His subject next Monday night will be "The Money Problem."

JEFFRIS' BIG MILL LAID LOW BY FIRE

JANESVILLE FIRM LOSES \$4000, WITH NO INSURANCE.

Part of Their Plant at Jeffris, Wis., Totally Destroyed Saturday Night.—The Yards and Lumber Saved—New Building Will Be Erected as Soon as Possible.

The Jeffris saw mill, located at Jeffris, Wis., was totally destroyed by fire on Saturday night, and the loss will amount to \$4,000, with no insurance.

The mill was owned by David Jeffris & Sons of this city, and was operated by D. K. Jeffris. Thomas Jeffris, one of the firm, was seen this morning.

"Nothing but the saw mill was destroyed," he explained. "Saturday we had everything cleaned up. The planing mill is two hundred feet distant from the saw mill, and escaped damage. The boilers in the saw mill furnished steam for the engine in the planing mill. The boilers, engine, and in fact none of the machinery in the saw mill, except the woodwork, was injured. We will have the smoke stack up by tomorrow night, and will soon be ready to start the planing mill again. The saw mill will be rebuilt at once. The origin of the fire is unknown, but it is supposed to have caught from sparks. It was first discovered about 9 o'clock. No lumber was burned."

D. K. Jeffris spent Sunday in Janesville, but returned to Jeffris last evening to superintend the construction of the new mill, and the repairs on the planing mill.

JANESVILLE PLATING WORKS

An Institute Much Sought For and Very Busy.

The Janesville Plating Works is owned and operated by Messrs Geo. Woodruff and Nicholas Dilzer, and in reality is a continuation of the firm of H. S. Woodruff & Co., but H. S. has returned and his son George, in partnership with Mr. Dilzer has taken up the plating work and is pushing it to the front very fast. To say the Janesville Plating Works will be a success, will be but repeating what every one knows. Both members of the firm have been with H. S. Woodruff ever since he commenced business in 1873, and understands every detail of it. Mr. Dilzer is one of the best platers in the country. He was an expert in the plating business in the east and has achieved more knowledge since coming here in 1873. A general plating business is carried on such as plating knives, forks, spoons, watch cases, rings or anything else one may desire. It often happens that a set of knives or forks may be made to look as good as new ones by having them plated. This work The Janesville Plating Works does. It is located in the building formerly occupied by H. S. Woodruff & Co., Franklin street.

If you want to get sleighs at your own price come quick. A few left. F. A. Taylor, Harris old stand.

Rev. Mr. Bray is visiting friends in the community.

SCHOOL ROW AT MAGNOLIA.

Disagreement at the South School—Three Cases of Scarlet Fever.

MAGNOLIA, Feb. 12.—The south school is in a wrangle, and many people think if the parents and board would stand by the teacher, instead of taking sides with unruly children, there would be less trouble. There are three cases of scarlet fever in this town. Mr. Greenwald's children being afflicted. Dr. Lacy is attending them. On account of the storm, William Drafah's child could not be buried until Saturday. The donation at D. Acheson's was not very largely attended last Friday night on account of the bad roads, but those who were there report a good supper and a good time. Next Friday evening there will be a donation for Elder Hatch at Wallace Andrews'. Johnathan Worthing is gaining slowly from a stroke of paralysis. Cards are out for a wedding on the 19th of this month. Frank Clifford does not seem to gain, as the severe cold weather is against him. Rev. Mr. Hatch will be in Milwaukee the most of this week. Warren Cain of Footville, was in attendance at the Advent church Sunday morning. G. H. Howard is still in Janesville. Smith Jameson's old dog "Bruno" is dead.

FOOTVILLE PIONEER STRICKEN.

David Ayers is Very Low From The Effects of a Stroke of Paralysis.

FOOTVILLE, Feb. 12.—David Ayers is very low, suffering from a stroke of paralysis. He is an old pioneer. Much sickness prevails here, and the doctor was compelled to do much riding during the recent stormy weather and bad roads. Another wedding is said to be booked for the future. A valentine social will be held at the residence of Mr. Harper on Thursday evening, February 14. A program will be rendered and a supper served and all are invited to attend. Miss Hattie Townsend and Ed. Acheson of Magnolia, called on friends and attended service here Sunday evening. William Canary lost an infant child on Wednesday, and the interment was made at Janesville. Aden Ross, of Beloit, was a pleasant caller here on Saturday last. Rev. Peterson exchanged pulpits with Rev. Perry, of Orfordville, Sunday. Fisher & Wiggins are shipping many hogs from this place. Heway Pepper and wife have been spending the past week with his wife's people. Mr. and Mrs. James Hastings.

News of Indian Ford.

INDIAN FORD, Feb. 12.—The prohibition lecture given in the Good Templar's hall by S. R. Titus, was well attended. Mrs. Hurd, who has been quite sick is reported much better. Mrs. Alverson of Adams county, has returned home. Miss Mae Johnson of Evansville Sundayed with her brother, E. D. Johnson, of this place. C. S. Thomas has concluded it is too cold to burn wood this cold weather and has got some coal. Willis Scofield is filling his ice house. Elder Woodside, pastor of the M. E. church of Edgerton, preached a very able discourse here. The revival meetings at the M. E. church of Edgerton will be continued this week.

It Was a Brilliant Affair.

A London society woman, wishing to give a fancy ball recently, was besieged by letters after her invitations were out, asking permission to appear in ordinary evening dress. Alarmed at the prospect of a colorless ball, she diplomatically replied that any woman over thirty-five might come in evening dress. The ball was a brilliant affair and every woman came in a character gown. Which story is matched by one told at a woman's club last week of the efforts of a good clergyman to interest the women of his flock in some church movement. "I will ask," said he, at the close of the sermon, "the elderly ladies of the congregation to remain a few minutes after the benediction." He found himself alone with one woman—the mother of the teller of the story, who, at thirty-five, was willing to sacrifice herself for the sake of her pastor and remained to point out to him his grievous blunder. The same notice, differently worded, the following Sunday, secured a numerous response.

Ready for Anything.

Fair Patient—Is there no way of telling exactly what is the matter with me, doctor?

Dr. Emdee—Only a post-mortem examination would reveal that.

Fair Patient—Then, for heaven's sake, make one. I don't see why I should be squeamish at such a time as this.

In these days of telephone, telegraph, electricity and steam, people cannot afford to wait days or even hours for relief. This is our reason for offering you One Minute Cough Cure. Neither days, nor hours, nor even minutes elapse before the relief is afforded. C. D. Stevens.
